

Complete solutions for the hospitality industry

ECOLAB®

Complete solutions for your hospitality business

ECOLAB – Cleaning products for the hospitality industry

We have the right applications for every area in your restaurant, café or hotel from front to back of house, from laundry to housekeeping. Below you will find everything that can be used in your organization and what services you can expect from Interfarm NV / Ecolab. We have in-house specialists who can assist you with advice, training, service, repair and maintenance. Your orders will be delivered by us to your company at no additional cost. Quick and easy!

In this brochure you will find an overview per area of your hospitality company with the various products, solutions and their specific applications that are important to you. This is not a complete catalogue but its objective is to give you more insight on our products and services.

We provide you with total advice for your hospitality business. In a personal meeting we would like to identify all your wishes and come up with solutions for you. Simply contact us for an appointment!

ECOLAB®

Ecolab is a global leader in water, hygiene and infection prevention solutions and services that help people, protect our planet and businesses. We deliver comprehensive science-based solutions, data-driven insights and world-class service to improve food safety, help clean and maintain safe environments, optimize water and energy use, and improve operational efficiency and sustainability for customers around the world.

This brochure has been divided in the following areas you can easily recognize by their color code:

- 1. Food & Beverage (Front of House)
- 2. Food & Beverage (Back of House)
- 3. Housekeeping
- 4. Laundry

1. Food & Beverage (Front of House)
2. Food & Beverage (Back of House)
3. Housekeeping
4. Laundry

Below you will find the different focus areas for which we have products and solutions:

Hand care

Ecolab offers a variety of liquid and foaming wash lotions, hand sanitizers and care lotions that keep your staff and guests safe and healthy. We've developed a hand hygiene system that combines germicidal chemistry with technology and training - keeping your hand cleaning habits safe, simple and efficient. With Ecolab's hand hygiene system you get efficiency, innovation and sustainability in one elegant dispenser. Interfarm NV offers these dispensers to you on the basis of a loan agreement whereby you are also assured of maintenance and complete service.

Towels

An indispensable element in every professional kitchen and toilet: towel dispensers. Your employees and guests always have fresh disposable paper towels available to dry their hands after washing. Interfarm NV has a large stock of towels and the associated dispensers for you, with the possibility that you can borrow the dispensers from us, including service and maintenance.

Toilet paper

Our range of hygiene articles is complete with the toilet paper that you can purchase per box from us. Good quality at a reasonable price. Of course we supply the dispensers on a loan basis, if desired when purchasing these products. Let our service staff inform you.

Professional disinfection products and surface cleaners

Restaurants have more choices and higher expectations than ever before. To leave a lasting impression on your guests - and keep them coming back - you need clean, shiny surfaces in the dining area, restrooms and kitchen.

Ecolab is the answer. Our comprehensive portfolio of professional disinfection and sanitizing products includes surface cleaning chemicals tailored to meet your specific foodservice needs. We offer personalized service and cleaning systems that put your restaurant and the food you serve in the spotlight. The result: an unforgettable experience for your guests and a good reputation for you.

We provide you with tailor-made advice and have the necessary equipment that we can offer on loan if desired, such as cleaning agent dispensers and dosing systems. With this you always have the right dose and you prevent waste and unnecessary expenditure. Interfarm NV will provide you with free service and maintenance of your dispenser system all year round as long as you purchase the products from us.

1. Food & Beverage (Front of House)
2. Food & Beverage (Back of House)
3. Housekeeping
4. Laundry

Laundry on site

Let Ecolab work with you to develop a comprehensive program for your laundry business. We offer advanced commercial laundry detergents and also provide the appliances to help you control the total washing cost - including water and energy use - while delivering fresh, soft results.

Unique service

We install a dispenser unit in your laundry room that always offers the correct dosage for your washing machines. If desired, we can offer you complete Laundry Control Systems that control your washing machines and dryers. We program your machines for optimal results and you receive year-round service, maintenance and guidance from our Ecolab-trained specialists. This also includes the monthly reading of your machines and giving you a clear overview of the efficiency and costs per wash. Based on this, we advise you on how the washing process can be further optimized.

Solutions for floor and carpet cleaning

As a hospitality entrepreneur you strive for a superior guest experience, but this can be affected by dirty and unattractive carpets and floors in public areas and in guest rooms. Ecolab offers superior carpet and floor cleaning solutions and in-house training provided by our in-house specialists to help you exceed the expectations of your guests and visitors. Also look in the product table for the various specific applications in Front and Back of House and Housekeeping in, for example, your conference room or hotel rooms.

Hand dishwashing products

Ecolab dishwashing solutions provide spotless dishes, glassware and cutlery to make a positive impression on your guests and keep them coming back. Interfarm NV Ecolab works closely with you so that you can choose the right products, liquid or solid, to suit the specific needs of your business. We give you personal advice and have the necessary equipment that we can offer on loan if desired, such as cleaning agent dispensers and dosing systems.

Machine dishwashing detergents

Using industry-leading innovation, Ecolab offers you a complete suite of specific solutions for your unique business. With a objective 360-degree view of operations, you get the clean results customers expect while saving water, energy and, ultimately, costs. We can work with you to promote best dishwashing practices through comprehensive solid or liquid solutions and through on-site training and equipment use. We give you tailor-made advice and have the necessary equipment that we can offer on loan if desired, such as cleaning agent dispensers and dosing systems. In addition, we can order dishwashers for you and maintenance/repair of your dishwashers is also a service we provide.

1. Food & Beverage (Front of House)
2. Food & Beverage (Back of House)
3. Housekeeping
4. Laundry

Food preparation and disinfection

With our Antimicrobial Fruit and Vegetable Cleaner (Veggi Wash) you can protect fruit and vegetables from attack by bacteria and premature rotting of the products.

Commercial fat removal products

Ecolab has developed innovative solutions to meet all of your grease removal needs. Work with us to find out how our powerful kitchen degreasers, commercial oven cleaners, fryer cleaners and commercial clean-in-place oven cleaners can effortlessly degrease your kitchen.

Our product range can:

- Dissolve greasy pollution quickly
- Remove burnt-on or encrusted cooking residues and grease
- Tackle specific kitchen appliances (oven, grill, fryer)

Cleaning materials for the catering industry

Our comprehensive cleaning and disinfection products for the hospitality industry, combined with unparalleled service and expert training, make Ecolab your ideal partner for all your cleaning needs. Our range has been developed in such a way that household and kitchen employees always have the right product and the right cleaning materials and tools to carry out the work.

Drain cleaners

Our range is complete with clean and safe commercial drain cleaners that are particularly effective at breaking down grease and other food debris clogging your drains and grease traps.

Floor cleaners

Make sure your kitchen floors are clean and safe at all times. Ecolab offers a number of floor and drain cleaning solutions that break down the most stubborn grime on your kitchen floors and help prevent slips and falls.

We highlight our unique *Sanitizing Wash 'n Walk floor and drain cleaner* here:

A no-rinse floor cleaner that tackles grease build-up on slippery floors, reducing the risk of slips and falls. Breakthrough technology and a patented formula with enzymes for high-quality cleaning.

Leave the cleaner on the surface and be amazed by the result. Takes care of grease fast. Special enzymes break down all types of kitchen grease and provide continuous action. The enzymes are active both during and after application and work sustainably and effectively. This floor cleaner does not need to be rinsed and therefore saves a lot of water.

1. Food & Beverage (Front of House)
2. Food & Beverage (Back of House)
3. Housekeeping
4. Laundry

Our **kitchen hygiene program** helps you maintain hygiene standards and includes disinfectants, degreasers, floor cleaners, oven cleaners and manual cleaning products for the kitchen. The agents can be safely applied using an **innovative dosing system** that avoids contact with the concentrated agents and minimizes the risk of spillage.

The advantages

Controlled product dilution so you can manage your costs

Closed dosing system – cleaning chemicals are not mixed manually

Compact - up to 4 products per dispenser

Spray bottles and buckets can be filled quickly and with one hand

Regular on-site training, service, maintenance and support from **Interfarm NV Technical Support**
